

## Window Treatments

As part of Keystart's continuous review of our end-to-end process we are pleased to let you know that window treatments are no longer required to be included as a minimum building & established property requirement.

Customers can elect to either include window treatments in their building contract or source these themselves when they move into their newly built or established property.

It is important to note that window treatments should not be removed from any existing building contracts without prior approval as it may impact the value of the home.

The new approach will commence from Wednesday 26<sup>th</sup> April.
