

Auswide Bank is excited to announce that on **Wednesday 18 October 2023** our new Broker Website and Broker Portal will go live.

Based on broker feedback we have included more resources in our Document Hub, and we have created a Broker Portal that provides our brokers with an individual service centre where you can see your applications progressing through our workflow. As a part of the portal you will be able to access other supporting systems you may need when working with us including upfront valuations, MSA documentation and settlements system and the QBE portal from one easy location.

We have also included a Credit Policy guide to give you the ability to determine if more of your deals will fit with Auswide Bank. With loads of features, the website is simple to navigate and designed to make it easier to work with us and find the important information you need, when you need it.

Make sure you register for your access to your Broker Portal page when the new site goes live.

If you have any questions please contact our Broker Support team or your BRM.
