### Updated process for where Long Form Valuations are required

From **Monday 23 October 2023**, where a Long Form Valuation is required due to the security characteristics, you'll be required to supply a corresponding home loan application for the valuation to be processed. There is no change to how you order Long Form Valuations, however you must now ensure the application ID is submitted with the request.

### New options for pre-application queries

If your customer is not ready to submit their application yet, you'll still be able to support them with an **Indicative property value** using a Property File Report via [Property Hub](#).

If you have any questions, please speak to your Connective Home Loans Essentials Business Development Manager.
