

## Important News

### **Our 0.2% Bonus Discount Investor Campaign is concluding**

We wish to advise that our 0.2% Bonus Discount Investor campaign is concluding and will no longer be available to applications lodged from 10th April 2024.

The campaign was introduced two years ago and provided customers with an attractive, longer term beneficial alternative to the cashbacks being offered at the time.

During its' time the campaign has been very successful, helping our investor clients to reduce the cost of their investment lending, particularly as we saw the interest rate increases by the Reserve Bank continue for an extended period of time.

Our investment lending currently offers the same rate for both P&I or IO repayments, a maximum LVR of 90% including LMI, and fixed rates with the benefits and features of a variable loan.

We will continue to review our position and opportunities to provide attractive, beneficial investment lending products to the market for your clients.

**Please Note:**

Any applications need to be lodged with correct full supporting documents **prior to midnight Tuesday 9th April 2024 to be eligible** for the bonus campaign. Applications received after this time, or without correct full

supporting documents at the time of lodgement, will not have the bonus discount applied.

If you require any assistance, please contact your Broker Relationship Manager or our Broker Support team.
