Are you familiar with ApplyOnline's new user interface?

ApplyOnline has a fresh new look, with NextGen.Net recently releasing a new user interface to make the lodgement experience simpler and faster.

The old user interface will soon be unavailable

You may have noticed that you still have the option to revert to the previous version of the ApplyOnline user interface. This is a temporary option to ensure you have time to become comfortable with the new user interface before the old user interface becomes unavailable on **Monday 27 May 2024**.

What's changed

How ApplyOnline works remains the same - continue to create your customer's application via your CRM, import it to ApplyOnline, review lender-specific validation rules and upload mandatory supporting documents prior to submitting.

The changes to the UI include:

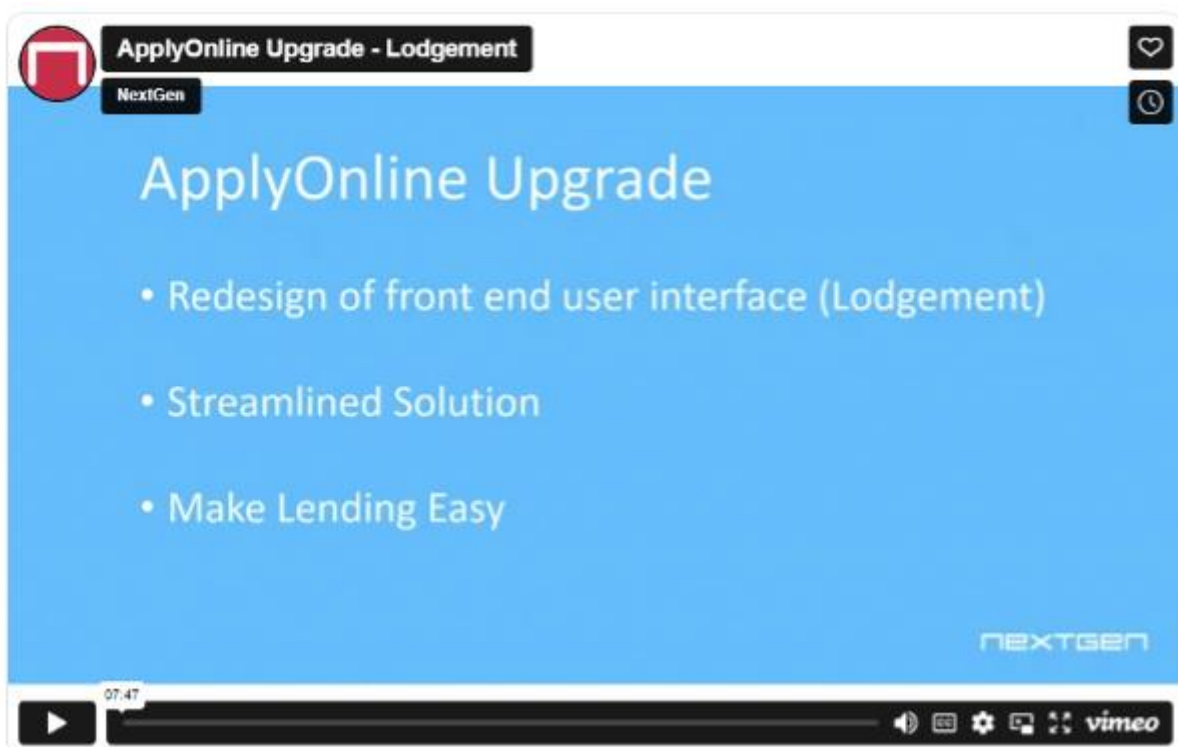

- New layout
- Contemporary look and feel
- Efficiency features

Training and resources

If you are still not familiar with the new user interface, we strongly recommend you begin using it as soon as possible to lodge applications.
